FITNESS CLASS DESCRIPTIONS

Strength & Core- This simple, easy-to-follow strength and core workout challenges every major muscle using a variety of equipment. Increase your lean body mass while reducing your body fat in this full body workout, in less time. This class is suitable for all fitness levels and no experience is necessary.

Sit and Be Fit- Using a chair, the class works with resistance bands, light weights and your own body resistance to give you a workout without being on your feet, lessening the impact of exercise on your joints.

Les Mills Body Pump™ - BODYPUMP™ is the original barbell class that strengthens your entire body. This 60-minute workout challenges all your major muscle groups by using the best weight-room exercises like squats, presses, lifts and curls. Great music, awesome instructors and your choice of weight inspire you to get the results you came for – and fast. Participants need to bring a towel and water bottle. When exercises are performed at full range with proper form and correct weight selection, this class is a great cardio option as well!!!

Les Mills BODYCOMBAT™ Bodycombat is a high-energy martial arts-inspired workout that is totally non-contact. Punch and kick your way to fitness! No experience needed. CARDIO

Les Mills RPM® - RPM® is the INDOOR CYCLING workout where you ride to the rhythm of powerful music. Take on the terrain with your inspiring team coach who leads the pack through hills, flats, mountain peaks, time trials and interval training. Sweat and BURN to reach your endorphin high. RPM® is the 45 minute ride that brings out the athlete in all of us. Participants must pre-register for the class each month.

Kettlebell- Originating in Russia, a kettlebell is a centuries old training tool that looks like a cannon ball with a handle. From strengthening the key muscles of the lower body (glutes, hamstrings and quads) to challenging the muscles of the core and upper body (back, shoulders forearms, triceps, biceps and chest) kettlebells truly are a highly effective training tool for improving total body strength with a little kick of cardio.

Cardio Kickboxing—Punch & kick your way to fitness! Cardio kickboxing combines interval training with kickboxing moves to give your entire body a stellar workout. Timed drills are executed utilizing both your body weight and freestanding punching bags.
